INDEPENDENT AUDITORS' REPORT

The Board of Trustees Teton County School District No. 401 Driggs, Idaho

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Teton County School District No. 401 as of and for the year ended June 30, 2006, which collectively comprise the school district's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Teton County School District No. 401 management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Teton County School District No. 401 at June 30, 2006, and the respective changes in financial position there of and the respective budgetary comparison for the general fund, child nutrition fund, debt service fund and capital project fund for the year then ended, in conformity with accounting principles generally accepted in the United States of America

In accordance with *Government Auditing Standards*, we have also issued our report dated August 15, 2006 on our consideration of Teton County School District No. 401 internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

IDAHO FALLS | REXBURG | DRIGGS | BOZEMAN | WEST YELLOWSTONE

The management's discussion and analysis, as listed in the table of contents, is not a required part of the basic financial statements but is supplementary information required by accounting principals generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Teton County School District No. 401's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of Teton County School District No. 401. The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Gingg & Jowbarn

August 15, 2006

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Teton County School District #401, we offer readers of the District's financial statements this narrative discussion, overview, and analysis of the financial activities of the District for the fiscal year ending June 30, 2006.

Financial Highlights

- The assets of the District exceeded its liabilities at June 30, 2006 by \$3,666,885. Of this amount, \$726,834 of unrestricted net assets may be used to meet the District's ongoing obligations.
- The District's net assets decreased by \$803,731 as a result of this year's operations.
- The unreserved fund balance for the general fund was \$326,557 or 4.22% of the total general fund expenditures.
- The District issued \$12,000,000 of general obligation bonds to be used in the construction of a new middle school and an addition to the high school.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the assets and liabilities of the District, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* present information showing how the net assets of the District changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows.

The government-wide financial statements can be found on pages 9-10 of this report.

Fund financial statements. A *fund* is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains twenty individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the debt service fund, the child nutrition fund, and the capital projects fund, all of which are considered to be major funds. Data from the other sixteen governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The District adopts an annual appropriated budget for its general fund and all special revenue funds. A budgetary comparison statement has been provided for each major fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 11 and 13 of this report.

Fiduciary fund. Fiduciary funds are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are not available to support the District's own programs.

The District uses an agency fund to account for resources held for student activities and groups. The basic fiduciary fund financial statement can be found on page 19 of this report.

Notes to the financial statements. The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 20-30 of this report.

Other information. The combining statements referred to earlier in connection with nonmajor governmental funds and are presented immediately following the notes to the financials statements. Combining fund statements and schedules can be found on pages 31-35 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$3,666,885 at the close of the most recent fiscal year.

Net Assets

	Governmental Activities				
		2006	2005		
	Φ	14002055 Ф	2 224 502		
Current and other assets	\$	14,983,055 \$	3,334,502		
Capital assets	_	7,243,667	7,349,043		
Total assets		22,226,722	10,683,545		
Current liabilities		1,424,885	1,462,499		
Long-term liabilities		17,134,952	4,750,430		
Total liabilities		18,559,837	6,212,929		
Net assets:					
Invested in capital assets, net of related debt		2,217,651	2,178,908		
Restricted		722,400	590,929		
Unrestricted		726,834	1,700,779		
Total net assets	\$	3,666,885 \$	4,470,616		

A portion of the District's net assets (60%) reflects its investment in capital assets (e.g., land, buildings and improvements, and furniture and equipment), less any related debt (general obligation bonds payable) used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net assets (20%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net assets* \$726,834 may be used to meet the District's ongoing obligations to students, employees, and creditors.

Changes in Net Assets

		Governmental Activities				
		2006	2005

Decrease in Net Assets	\$	(803,731)\$	(321,829)			

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. The unreserved fund balance is divided between designated balances and undesignated balances. The District has designated portions of the unreserved fund balance to earmark resources for certain government-wide liabilities and post employment obligations that are not recognized in the governmental funds. Undesignated balances in the general fund are required by state law to be appropriated in the following year's budget. Fund balances of capital projects and other governmental funds are restricted by state law to be spent for the purpose of the fund and are not available for spending at the District's discretion.

General fund. The general fund is the chief operating fund of the District. At the end of the current fiscal year, unreserved and undesignated fund balance was \$326,557. The unreserved and undesignated fund balance decreased by \$942,918 during the current fiscal year.

Expenditures for general District purposes totaled \$7,733,885, an increase of 5% during the current fiscal year.

The capital projects fund has a total fund balance of \$12,489,565, the majority of which is restricted for construction of facilities, purchase of equipment and related expenditures. The fund balance increased by \$12,397,441 during the current year.

The debt service fund has a total fund balance of \$149,867, all of which is reserved for the payment of debt service on general obligation bonds. The fund balance decreased by \$254,549 during the current year.

The child nutrition fund has a total fund balance of \$92,069, all of which is reserved for the child nutrition program. The fund balance decreased by \$23,952 during the current year.

General Fund Budgetary Highlights

There were amendments made to the original budget.

During the year final budgeted revenues exceeded the original budgetary estimates by \$110,880.

During the current fiscal year, the \$110,880 positive budget to actual variance in total general fund revenues, and the \$215,677 positive budget to actual variance in total general fund expenditures, are largely a result of state program revenues and related expenditures that do not have a direct impact on the undesignated fund balance. Program revenues are budgeted to spend all available resources. Therefore, when the budget is prepared, it is assumed these funds will not have a carryover of revenue to a subsequent year. Program revenues received but not spent are restricted and deferred to the subsequent year.

Capital Asset and Debt Administration

Capital Assets. The capital projects fund is used to account for the costs incurred in acquiring and improving sites, constructing and remodeling facilities, and procuring equipment necessary for providing educational programs for all students within the District.

Capital assets at June 30, 2006 are outlined below:

Capital Assets (Net of depreciation)

	Governmental Activities				
	 2006	2005			
Land	\$ 951,000 \$	951,000			
Construction in progress	107,038				
Buildings and improvements	8,188,478	8,150,968			
Furniture and equipment	4,765,178	4,633,302			
	 14,011,694	13,735,270			
Accumulated depreciation	 (6,768,027)	(6,386,227)			
Total capital assets, net of depreciation	\$ 7,243,667 \$	7,349,043			

Debt Administration. On March 7, 2006, the public voted to authorize the District to issue \$12,000,000 general obligation bonds to construct a new middle school and to construct an addition to the high school.

Outstanding Debt

Governmental	Governmental Activities			
2006	2005			
\$ 16,585,000 \$	4,975,000			
94,736	124,765			
76,694	70,370			
378,522				
\$ 17,134,952 \$	5,170,135			
	\$ 16,585,000 \$ 94,736 76,694 378,522			

Additional information on the District's long-term debt can be found in the basic financial statements.

Requests for Information

This financial report is designed to provide a general overview of the Teton School District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the District Office, Teton School District, P.O. Box 775, Driggs, ID 83452.

TETON COUNTY SCHOOL DISTRICT NO. 401 RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET ASSETS JUNE 30, 2006

Amounts reported for governmental activities in the statement of net assets are different because:

TOTAL FUND BALANCE - GOVERNMENTAL FUNDS	\$13,060,382
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. The cost of assets is \$14,011,694 and the accumulated depreciation is \$6,768,027.	7,243,667
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.	(16,756,430)
Bond issuance costs reported as an expenditure in the fund financial statements are capitalized in the government-wide statements. The total costs are \$109,852 and the accumulated amortization is \$915.	108,936
Bond premium reported as a revenue in the fund financial statements is capitalized in the government-wide statements. The total premium is \$381,703 and the accumulated amortization is \$3,181.	(378,522)
Property tax revenue is recognized when earned rather than when available.	388,852
TOTAL NET ASSETS - GOVERNMENTAL ACTIVITIES	\$ 3,666,885

TETON COUNTY SCHOOL DISTRICT NO. 401 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2006

Amounts reported for governmental activities in the statement of activites are different because:

NET CHANGES IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	\$ 11,173,303
Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$5,000 are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.	(105,378)
Property tax revenues received prior to the year for which they are levied are reported as deferred revenue in the governmental funds. The change however is recorded as revenues in the statement of activities.	(15,776)
Compensated absences (a long-term liability) is not due and payable in the current period and therefore is not reported as an expenditure in the governmental funds.	(6,324)
Governmental funds report repayment of bond principal as an expenditure in the fund financial statements. These payments are shown as reductions in long-term debt in the government-wide statements. Interest is recognized as it accrues regardless of when it is due.	420,030
Governmental funds report bond proceeds as an other financing source, while the government-wide statements show the proceeds as an increase in long-term debt.	(12,000,000)
Governmental funds report bond issue costs as an expenditure, while these costs are amortized over the term of the bond in the government-wide statements.	108,936
Governmental funds report bond premiums as an other financing source, while the premium is amortized over the term of the bond in the government-wide statements.	 (378,522)
CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES	\$ (803,731)

TETON COUNTY SCHOOL DISTRICT NO. 401 NOTES TO FINANCIAL STATEMENTS JUNE 30, 2006

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Teton County School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

The Board of School Trustees, a five-member group, has responsibilities for all activities relating to public elementary and secondary school education within the jurisdiction of Teton County School District No. 401. The Board receives funding from local, state and federal government sources and must comply with the concomitant requirements of these funding source entities. The Board is not included in any other governmental "reporting entity" as defined in Section 2100, *Codification of Governmental Accounting and Financial Reporting Standards*, since Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters.

Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the non-fiduciary activities of the District.

The statement of activities demonstrates the degree to which the direct expense of a given function or segment are offset by program revenues. Direct *expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to students or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as is the fiduciary fund financial statement. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, early retirement, arbitrage rebates, and post employment healthcare benefits, are recorded only when payment is due.

Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the District receives cash.

The District reports the following major governmental funds:

- The *general fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.
- The *capital projects fund* accounts for resources accumulated and payments made for the acquisition and improvement of sites, construction and remodel of facilities, and procurement of equipment necessary for providing educational programs for all students within the District.
- The *debt service fund* accounts for the accumulation of resources for, and the payment of long-term debt principal and interest.
- The *child nutrition fund* accounts for the revenues and expenses associated with the operation of the District's food services.

Additionally, the District reports the following fund types:

• The *student activities agency fund (a fiduciary fund)* accounts for assets held on behalf student groups.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgetary Policy

The District prepares budgets for all the governmental fund types. Such budgets are adopted on a basis generally consistent with generally accepted accounting principles.

Under Idaho law, the District's budget establishes maximum legal authorization for expenditures during the fiscal year. Under certain unusual circumstances, the District is allowed to reopen and amend its budget. Expenditures are not to exceed the budgeted amounts, except as allowed by law for certain events. The original budget was amended during the year.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditures of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the District because it is not considered necessary at present to assure effective budgetary control or to facilitate effective cash planning and control.

Inventories

The governmental funds of the District use the purchase method, whereby inventory items are considered expenditures when purchased. They are not included in the balance sheet of the general fund because the amounts on hand at year-end are immaterial.

Capital Assets

Capital assets, which include land, buildings and improvements, and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000 for furniture and equipment and \$100,000 for buildings and improvements and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extended assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized.

Buildings and improvements and furniture and equipment of the District are depreciated using the straight-line method over the following estimated lives:

Assets	Years
Buildings	50
Busses	10
Furniture	10
Equipment	10
Vehicles	8
Computer equipment	5

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a restricted purpose. Designations of fund balance represent tentative plans for future use of financial resources that are subject to change.

2. CASH AND INVESTMENTS

The District is authorized under Idaho Code to invest in cash, certificates of deposit, U.S. Government securities, commercial paper, and repurchase agreements. All investments must be held by or registered in the name of the District.

Cash balances of most of the District funds are pooled and invested. Interest earned from investments purchased with pooled cash is allocated to each of the funds based on the fund's cash balance. The District maintains checking accounts with one of the local banks. All excess funds are invested with the State Treasurer's pooled cash investment account. This account invests in time certificates of deposit, local government tax anticipation notes, federal loans, U.S. treasury notes and other U.S. governmental securities. Information regarding insurance or collateralization of amounts invested in the pooled accounts is not available.

The District's cash accounts are insured through the Federal Deposit Insurance Corporation (at banks) and The Federal Savings and Loan Insurance Corporation (at savings and loans organizations) up to \$100,000 per depository.

- 1. Deposits At June 30, 2006, the carrying amount of the District's deposits was \$136,362 and the respective bank balances totaled \$211,632. Of the bank balances, \$100,000 were insured or collateralized with pooled securities held by the pledging financial institution in the name of the District.
- 2. Custodial Credit Risk, Deposits Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned. As of June 30, 2006, \$111,632 of the District's total deposits of \$211,632 were not covered by federal depository insurance, and thus were exposed to custodial credit risk.
- 3. Investments As of June 30, 2006, the District had the following investments:

		Investment Maturities (in Years)							
Investment Type	Fair Value		Less Than 1		1-5		6-10	More Than 10	
U.S. Treasuries	\$ 11,293,107	\$		\$		\$	\$		
State Investment Pool	2,037,170		2,037,170						
	\$ 13,330,277	\$	4,776,655	\$	8,553,622	\$	\$		

4. Custodial Credit Risk, Investments – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investment.

2. CASH AND SHORT-TERM INVESTMENTS (Continued)

- 5. Interest Rate Risk As a means of limiting its exposure to fair value losses arising from changes in interest rates, the District structures its portfolio so that securities mature to meet cash requirements for ongoing operations. Because the State Investment Pool as of June 30, 2006, had a weighted average maturity of 135 days, it was presented as an investment with a maturity of less than one year.
- 6. Credit Risk Credit risk is the risk that an issuer or other counter party to an investment will not fulfill its obligations. It is the District's policy to limit investments to the safest types of securities and to diversify the District's investment portfolio so that potential losses on securities will be minimized. The District follows Idaho statute that outlines qualifying investment options.

Reconciliation of deposits categorization:

Cash and Investments reported on the statement of net assets Cash and Investments reported of the statement of	\$13,412,774

· r · · · · · · · · · · · · · · · · · ·	\$13,466,639

3. PROPERTY TAXES

Property taxes of the District are based on the assessments against property owners as of the first Monday in January of the calendar year in which the fiscal year commences. Tax levies on such assessed values are certified to the counties prior to the commencement of the fiscal year. Taxes are collected by Teton County and are remitted to the District primarily in January of the fiscal year and the July following. Accordingly, the tax revenues for the fiscal year ended June 30, 2006, are generally based on the assessed values and tax levies established in 2005

The District defers recognition of revenues relating to property taxes assessed but not collected within 60 days of the fiscal year-end. Such amounts will be recognized as revenues in the fiscal year they become available.

4. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2006 is as follows:

		Beginning Balance		Increases		Decreases		Ending Balance

5. GENERAL OBLIGATION SCHOOL REFUNDING BONDS

On April 1, 2004, the District issued \$4,390,000 in general obligation bonds with an average interest of 2.6 percent to advance refund \$4,390,000 of outstanding 1996 series bonds with an average interest rate of 5.5 percent. The net proceeds were placed in escrow with Wells Fargo Bank, National Association to establish an irrevocable trust escrow fund consisting of cash and noncallable direct full faith and credit obligations of the United States of America. The escrow shall be used to refund \$4,390,000 of the outstanding series 1996 bonds and that amount shall be considered defeased and the liability for those bonds has been removed from the financial statements.

6. GENERAL OBLIGATION BONDS PAYABLE

The District issued \$12,000,000 (net of a premium of \$381,703) of 2006 Series General Obligation Bonds during the current fiscal year. The District now has three general obligation issues outstanding.

Bonds outstanding at June 30, 2006, were as follows:

	Interest	Maturity	
Description	Rates	Dates	Amount
General Obligation Bonds,			
1996 Issue	5.20%	2006	
(Original amount\$7,000,000)	to 6.00%	to 2007	\$ 330,000
General Obligation Refunding Bonds,			
2005 Issue	1.40%	2006	
(Original amount\$4,390,000)	to 3.25%	to 2017	\$ 4,255,000
General Obligation Bonds,			
2006 Issue	4.00%	2007	
(Original amount\$12,000,000)	to 5.00%	to 2026	\$ 12,000,000

The amount to be provided for bond requirements in the accompanying financial statements represents the charge to be made for property taxes in future years to meet maturing bond requirements.

The annual requirements to amortize the above bond issues are as follows:

Fiscal Year	Principal	Interest	Total
2007	\$ 410,000	\$ 613,155	\$ 1,023,155
2008	200,000	918,393	1,118,393
2009	200,000	924,192	1,124,192
2010	480,000	684,193	1,164,193

7. NOTE PAYABLE

Note payable to Zion's Bank with annual payments based upon a variable rate of interest at 75% of the prime lending rate determined as of the first business day of each month. Annual payments are due each July 1 with the final payment due July 1, 2008.

7. NOTE PAYABLE (Continued)

The annual requirements to amortize the above note are as follows:

Fiscal Year	Principal	Interest	Total
2007 2008 2009	\$ 30,563 \$ 31,568 32,605	2,114 \$ 2,109 1,072	33,677 33,677 33,677
	\$ 94,736 \$,	101,031

8. CHANGES IN LONG-TERM DEBT

The following is a summary of the District's long-term transactions for the year ended June 30, 2006:

			2005					
			G.O.		Zion's	Co	ompensated	
		1996	Refunding	2006	Note		Absences	
	G	i.O. Bonds	Bonds	G.O. Bonds	Payable		Payable	Total
Long-term Obligations								
June 30, 2005	\$	645,000	\$ 4,330,000		\$ 124,765	\$	70,370	\$ 5,170,135
Obligations Incurred				12,000,000			6,324	12,006,324
Obligations Paid		(315,000)	(75,000)		(30,030)			(420,030)
Long-term Obligations								
June 30, 2006	\$	330,000	\$ 4,255,000	\$ 12,000,000	\$ 94,736	\$	76,694	\$ 16,756,430

9. RETIREMENT PLAN

Public Employee Retirement System of Idaho - The Public Employee System of Idaho (PERSI), a cost sharing multiple-employer public retirement system, was created by the Idaho State Legislature. It is a defined benefit plan requiring that both the member and the employer contribute. The plan provides benefits based on members' years of service, age, and compensation. In addition, benefits are provided for disability, death, and survivors of eligible members or beneficiaries. The authority to establish and amend benefit provision is established in Idaho Code. Designed as a mandatory system for eligible state and school district employees, the legislation provided for political subdivisions to participate by contractual agreement with PERSI. Financial reports for the plan are available from PERSI upon request.

9. RETIREMENT PLAN (Continued)

After 5 years of credited services, members become fully vested in retirement benefits earned to date. Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. For each month of credited service, the annual service retirement allowance is 2.0 % (2.3 % Police/Firefighter) of the average monthly salary for the highest consecutive 42 months.

The contribution requirements of Teton School District No. 401 and its employees are established and may be amended by the PERSI Board of Trustees. For the year ended June 30, 2006, the required contribution rate as a percentage of covered payroll for members was 6.23% for general members and 7.65% for police/firefighters. The employer rates as a percentage of covered payroll was 10.39% for general members and 10.73% for police/firefighter members. Teton School District No. 401 contributions required and paid were \$581,673, \$609,352 and \$501,345 for the years ended June 30, 2006, 2005, and 2004, respectively.

10. NON-MONETARY TRANSACTIONS

The District received commodities from the U.S. Government valued at \$24,331. The value was determined by confirmation with the State of Idaho Department of Education.

11. OTHER REQUIRED INDIVIDUAL FUND DISCLOSURES

The District expenditures exceeded the budgeted amounts in the following funds during the year ended June 30, 2006:

	Amount
Fund	Exceeded
Debt Service Fund\$	285,942
Vocational Education Fund	5,751
Medicaid Administration Fund	2,507
Title I Fund	569
Drug Free School Fund	561
Title VI-B Fund	555
Title II-A Fund.	89

Deficits in Individual Funds

There were no fund deficits at June 30, 2006.

12. INTERFUND TRANSFERS

A summary of interfund transfers by fund is as follows:

	Transfer In	Tra	ansfer Out
Major Funds:			
General	\$ 10,634	\$	262,005
Capital Project Fund	122,865		
Non Major Funds:			
Title I – Migrant	40,507

TETON COUNTY SCHOOL DISTRICT NO. 401 NOTE TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED JUNE 30, 2006

1. The accompanying schedule of expenditures of federal awards includes the federal grant activity of Teton County School District No. 401 and is presented in accordance with the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the financial statements.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Trustees Teton County School District No. 401 Driggs, Idaho

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Teton County School District No. 401 as of and for the year ended June 30, 2006, which collectively comprise Teton County School District No. 401's basic financial statements and have issued our report thereon dated August 15, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Teton County School District No. 401's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be a material weakness. A material weakness is a reportable condition in which the design or operation of one of more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we considered to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Teton County School District No. 401's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and,

IDAHO FALLS | REXBURG | DRIGGS | BOZEMAN | WEST YELLOWSTONE

accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the audit committee, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Board of Trustees Teton County School District No. 401 Driggs, Idaho

Compliance

We have audited the compliance of Teton County School District No. 401 with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2006. Teton County School District No. 401's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Teton County School District No. 401's management. Our responsibility it to express an opinion on Teton County School District No. 401 compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Teton County School District No. 401's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Teton County School District No. 401's compliance with those requirements.

In our opinion, Teton County School District No. 401 complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2006.

IDAHO FALLS | REXBURG | DRIGGS | BOZEMAN | WEST YELLOWSTONE

Internal Control Over Compliance

The management of Teton County School District No. 401 is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Teton County School District No. 401's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing in their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weakness.

This report is intended solely for the information and use of the audit committee, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
