

Water Consumption/Water Bottle Policy

The Board of Trustees recognizes the importance of water consumption and encourages increased consumption of water throughout the day. Staff members should be particularly sensitive to student needs for water during periods of hot weather. Students shall be allowed to carry water bottles during the school day using the water bottle policy shown below. Teachers may need to call for extra water breaks too. Even during periods of moderate temperature, staff members should remind students of the value of consuming water.

In addition, water sales should be a significant option through school vending and concession services. Water should be available during mealtimes, at least through water fountains.

Water Bottle Policy

When students bring water bottles for use during school:

- Water bottles should be clear and have secure caps.
- Students should not share water bottles.
- Empty bottles should, on a regular basis, be recycled (if appropriate), discarded, or taken home for sanitized reuse.
- Students misusing water bottles will be subject to disciplinary actions.
- Teachers have discretion in determining classroom use.
- Water bottles may not be used in computer labs, science labs and the library.

Policy History:

Adopted on: August 10, 2009
