

Teton School District #401

EAP Plan (Employee Assistance Plan)

Due to the challenges of tragedies, crisis and supporting staff, we recognize the need for additional support for staff. This is available now for school district staff and their immediate family members.

The school district is contracting with local mental health providers, to support staff through an Employee Assistance Program (EAP), which specifically provides for counseling services. This will be confidential and anonymous, no names or employee information will be shared with the school district.

You may contact any of the approved providers on the list, to schedule a counseling appointment, and the district will cover the costs for up to 6 hours.

Any general questions about the program may be directed to: Monte Woolstenhulme or Becca Berry.
